European day of languages

SEPTEMBER

Every year the European day of languages is celebrated in September. We gave chance to our children to speak English for the first time . Many activities were prepared for them- puzzles, guessing the language of newspaper and finally speaking with our friends who were from Poland, France, Spain, Latvia and England.

English breakfast

*We want to explore real
English so we sometimes do
breakfasts together*

International day of languages
We also want to know customs and habits
in foreign countries

SPORTS activities

All children can benefit from the exercise, energy release, and pure enjoyment of playing sports. This includes children with special needs.

Participating in sports can help boost self-confidence. It can also improve skills in relationship building and working as part of a team. And it can help in managing weight. This is a common problem among today's kids.

We learn for life

Cooking, sewing, wood craft, recycling,
nature, ironing etc.....

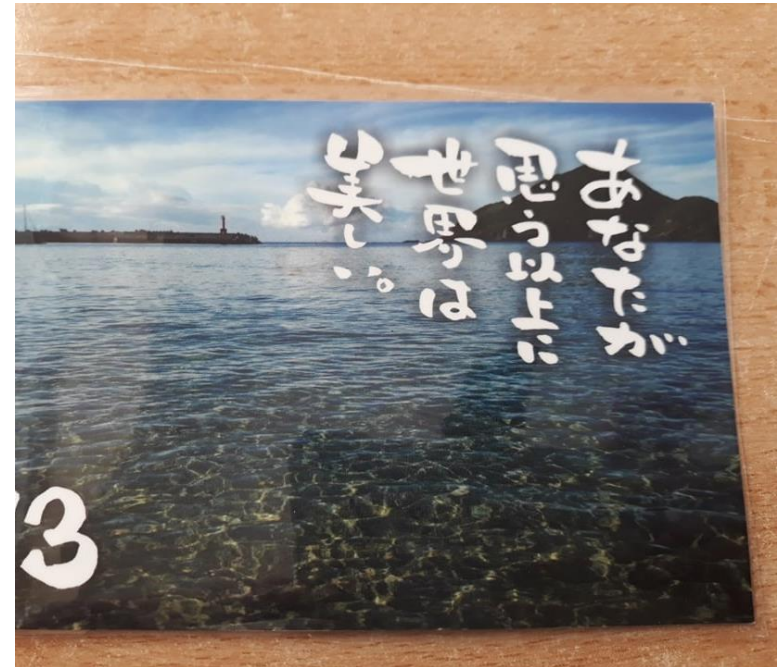

*We have adopted to ARA parrots from ZOO
PARK Stěžery (<https://www.zoostezery.cz/>)
We go to our zoo a lot and always enjoy it.*

We love animals

*We are not
only pupils and
teachers, but
we are friends*

***We fullfill our
childrens' dreams***

Afternoon club

*When we wait for
parents to come for us
the fun is waiting for us.
It's time to play,
it's time to go for walks,
it's time to have a rest,
guess what come next 😊*
